

Constraint Management Software

Must-Haves Checklist

When selecting a Constraint Management tool, the following is a list of features or capabilities that should be considered. Does the application support the ability to:

Must-Haves Checklist

Centralized Constraint Data

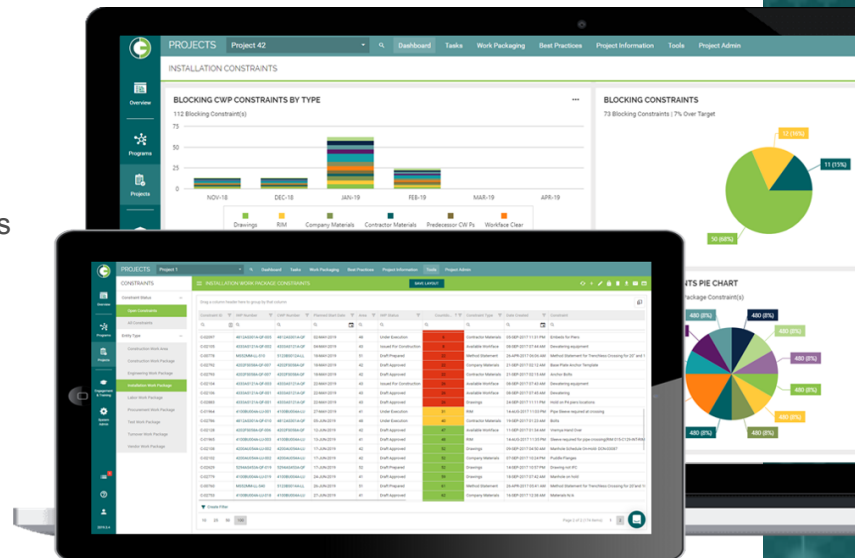

- ☐ Consolidate constraint lists to support better management across all stakeholders (Owner/EPC, Contractor, Sub-Contractor)

Automation

- ☐ Create workflows with the assignment of owners, due dates and priorities
- ☐ Manage tasks with automated notifications (in-app alerts, emails, and text messages)
- ☐ Collect constraint data through the integration with related tools

Meeting Support

- ☐ Hold constraint review meetings with specialized meeting tools and dashboards
- ☐ Leverage powerful constraint reporting for the WorkFace Planners, construction management, project management, and other supporting roles
- ☐ Track the health of the constraint management process using team goals and action plans
